

HAKKI PILKE®

Raven 33

The Hakki Pilke Raven 33 is a reliable and easy-to-use firewood processor. The machine's direct drive hydraulics enable simultaneous functions with effortless motions of the operating lever. The robust structure and minimal need for maintenance ensure that the machine is cost-efficient to use. Effortless operation and sufficient splitting power enable the processor to split even the largest of logs – get ready to make firewood for all purposes with unparalleled ease.

The single-piece cover, which is linked with the machine's operation and equipped with gas shocks, ensures safe operation and easy saw chain maintenance. It can also be easily opened in the event of malfunctions. The low power requirement and weight enable the machine to be used with lighter equipment. The Raven 33 comes as standard with belt feed and a laterally pivoting hydraulic outfeed conveyor.

Accessories can be used to equip the firewood processor for every need. A log lifter and various log tables can be used to reduce the work load even further. The 6-way splitting blade turns even the sturdiest of logs into conveniently sized firewood. The infeed conveyor reverse valve can be used to feed and reverse logs regardless of the machine function. The features of the Raven 33 firewood processor make it a perfect fit for shared use.

- **ROBUST STRUCTURE AND MINIMAL NEED FOR MAINTENANCE**
- **SAFE TO USE**
- **THE MACHINE CAN BE EQUIPPED FOR EVERY NEED**

Comes with a hydraulically pivoting outfeed conveyor as standard.

TECHNICAL SPECIFICATIONS

Max log diameter	330 mm	13"
Max log length	500 mm	20"
Maximum splitting power	6 t	
Bar	15"	
Power source	PTO, electric	
Splitting blade	2/4-way	
Outfeed conveyor length	4 m	13'1"
Infeed conveyor length	2.2 m	7'2"

STANDARD EQUIPMENT

Hydraulic infeed conveyor	
Safety cover	
Automatic chain oil lubrication	
Automatic speed valve	
Pivoting outfeed conveyor	
Infeed conveyor reverse valve	
Cleaning outfeed conveyor	

DIMENSIONS IN TRANSPORT POSITION

Height	2,450 mm	8'0"
Length	2,500 mm	8'2"
Width	1,200 mm	3'11"
Weight	820 kg	1,808 lbs

OPTIONAL EQUIPMENT

Infeed serial connection kit + valve	
Accessory valve	
Infeed guide plate	
Splitting blade	6-way
Outfeed conveyor extension	1 m
Outfeed conveyor speed control	
Heater for oil	
Toolbox	

ACCESSORIES

HakkiLift	Raven *
HakkiFeed	371 (422, 471 and 472) *
Hakki Pilke Cleaner	
Hakki Pilke Roller	
Powerpack	

* requires an additional valve

Infeed conveyor reverse valve available as standard.

Log feed using a heavy duty belt with a rough surface.

Outfeed conveyor speed control valve as easy-to-install accessory.
